

Field Trip: Saturday, February 3, 10:00 AM

Suwannee Ridge Wildlife and Environmental Area, SW 67th Loop, Jasper, FL 32052

We will meet in the parking lot at the NW corner of Village Square Blvd and Thomasville Rd at 8:30 and leave by 8:40 for the 1 hour 20 min drive so we can arrive at Suwannee Ridge WMA by 10:00.

Come explore the inviting contrasts between restored longleaf pine uplands, shady hardwood hammocks and sinkhole depressions during this field trip to the Suwannee Ridge WEA led by Peter Kleinhenz.

Peter is an interpretive writer and planner for the Florida Fish and Wildlife Conservation Commission and will bring a high level of enthusiasm to this event! We may also get to see the co-champion cypress trees at the Holton Creek Conservation Area and an old growth longleaf pine forest at the Blue Springs Unit of the Twin Rivers WMA.
